A

Academic freedom, 88
Academic pressure, 115
Accidents in science classroom, 176–77, 180–81
Accountability, 308
Accreditation models, 238–39
Actions, 349–350
Actions and consequences, 340
Active intellectual engagement, 48–49
Acute PTSD (post-traumatic stress disorder), 132

Administrators: 70–78; improving teacher education, 21–22; mandated standards, 45; school safety and, 158; students with hearing loss, 29–32;
Adolescent support systems and safe learning environments, 164–72
Aggression, 164
Alternative-certification programs, 58–51
American Sign Language, 28–29
An Essentialist's Platform (Bagley), 300
Anger management, 117, 148
Anthrax threats, 114
Anti-violence initiatives, 148
Anxiety disorders, 130
Artistic/creative/cultural skills, 240
Arts: humanities as, 315; signifying whole of world experience, 310; value of teaching humanities, 312
Assaults, 160–61
Asthma, 182
At-risk students, 328–29, 332
Augustine, 309
Australia, 236–37, 239–40, 243–46

B

Bagley, Ruth Gertrude, 300
Bagley, Ruth Walker, 300
Bagley, William Chandler, 300–306
Bagley, William Chase, 300
Bandwidth limitations, 65
Banking of learning, 39
Banking or transmission model, 43
Battered-child syndrome, 119
Behavior, 110, 171
Bode, Boyd H., 302
Bomb threats, 114
Boundary crossers, 323
Brain research, 364–68
Brigham, Carl C., 304
Bullying, 110–11, 114, 117, 148; destructive nature of, 329; establishing clear sanctions, 161; scope of, 164
Business, 63–65, 319
Busing, 186

C

Canada, 240, 243–46, 250
Capacity building leadership, 318
Care ethics, 337–41
Caregiver neglect, 124
CD-ROMs, 267–71
Certification, alternative routes to, 23, 58–59
Character development, 116
Cheating, 188–89
Child abuse, 119–26
Child neglect, 120–21
Chronic PTSD (post-traumatic stress disorder), 132
CIB (Computer Integrated Building), 64
Circular differentiation, 237–38
Citizenship education, 242–46
Civics education, 243
Classes, 176, 181
Classroom Management, 302
Classrooms: achievement problems in, 254–55; moral climate, 143–44; primarily focused on improving test scores, 40
Climate of fear, 110–18
Cliques, 117
Cognitive performance, 48
Cohort model, 358–59
Collaborative problem solving, 49, 318
Collective leadership, 317
Communication, 167–72, 330–34
Community development, 317–25
Community-service programs, 335
Composition and teaching, 311–15
Conception, 312
Conflict resolution, 117, 148–52
Content standards, 38
Contextual dynamics, 219
Cosmopolitan norms, 220–21
CPD (continuing professional development), 344–52
CPS (Child Protective Services), 122, 124–25
Craftsmanship in Teaching, 302
Cremin, Lawrence, 305
Crisis-containment and management plan, 162
Critical/logical thinking, 240
Cultural deficit models, 218–19
Cultural knowledge, 372–79, 376
Culture: differences in achievement, 251–52; mathematics and, 261–63; student expressions of, 375
Curriculum: available materials, 50; international trends in framework, 235–46

D

Data communications, 65
Data loggers in science classrooms, 267–69
Deaf education, 26–29
Deaf students. *See* Students with hearing loss
De-escalation skills, 117
Delayed onset (post-traumatic stress disorder), 132
Delivery partnerships, 318
Delivery roles, 321–24
Demand, 269–73
Demons (educational), 94–95
Development stage, 320
Dewey, John, 306
Directive moral education, 338
Disabled students, 26–34
Disadvantaged students, 16
Discipline: parental participation, 165–66; policies, 334; science teacher management, 179
Discipline cycle, 143
Discipline-based learning standards, 38
Dispositions, 266–67
Distributive leadership, 318
Distributive negotiation, 151
Diversity, 372; dilemmas, 56–57; learning about, 359
Diversity Pedagogy Instrument, 373
Doctoral degrees and women, 212
Downward management, 70

E

Economic competitiveness, 242
Education: accreditation models, 238–39; brain research, 364–68; care ethics, 337–41; cheating, 188–89; circular differentiation, 237–38; citizenship, 242–46; cultural context, 219; developing employment skills, 240–41; economic competitiveness and, 242; federal attempts to influence, 225; growth in United States, 225; lifelong learning, 236, 239–40; locally developed standards, 41–43; mandated standards, 37–38; preventing mathematics achievement gap, 206; progressive movement, 305; role state should play, 44–45; state content standards, 38–39; transformational leadership, 318
Educational reform, 47, 361
Educational renewal, 95
Educational standards, state vs. local control of, 36–46
Educators: paraprofessional, 61
Elementary schools: conflict-mediation training, 148–55; moral education, 337–38
Emergency alternative-certification programs, 60–61
Emotional neglect, 123–24
Emotional violence, 329
Employment, 240, 242
Engineering, female participation in, 211–12
England, 237–39, 242–46
Essentialism, 300
Ethics, 145, 337–40
Experience and Education, 307
Expressive-collaborative approach, 145
External rewards, 92–93
Extreme pragmatism, 304–05

F

Facilitating instruction, 281
Facilitative partnerships, 318
Facilitative roles, 321–24
Faculty professional service, 90–91
Female students, disabling behaviors by, 205
Field study vs. service learning, 359–60
Fighting, 114
FIMS (First International Mathematics Study), 206–07
Financial capability, 241
Focus groups, 111–17, 328
Foucault's theory of power, 141
France, 237–38, 243–46
Fraud, 188–89

G

Gangs, 117
Gender, and mathematics education, 204–13
Generic preparation assumption, 18
Geometry, 230
Germany, 237–39, 242–46
Global economics, 63
Government targets for education, 236–37

H

Hearing loss. *See* Students with hearing loss
High-stakes testing, 115; improvement and accountability, 387; minority and low-income

candidates, 380–83; Praxis, 381
Humanities as arts, 315
Hungary, 243–46

I

ICPP (Integrated Cohort Preprofessional Program) model, 355–62
ICT (Information Communication Technologies), 266–73
Ideological assumption, 19
IEA (International Association for the Evaluation of Educational Achievement), 205–06
Improving student performance on state tests, 37
Improving teacher education, 19–24
Improving teacher quality, 14–19
INCA (International Review of Curriculum and Assessment Frameworks), 235–36
Inclusion, 56–57
Indicators of maltreatment, 122–24
Information management, 240
Information technology, 63
Initiation stage, 320
Inquiry-science approach, 367
In-service training, 47
Inspiration, 313–14
Institutional citizenship, 90
Institutional ineffectiveness assumption, 19
Integrative negotiation, 151
Intellectual abilities, 48
Intellectual and moral attentiveness, 40–41
Intelligence buildings, 63
International: teacher education, 18; trends in curriculum framework, 235–46
Interpersonal and social skills, 240
Interpersonal conflict, 148, 150
Intrinsic motivation, 92–93
Ireland, 237–39
Italy, 237–39, 243–46

J

James, Edmund Janes, 302–03
Japan, 242–46
Juvenile judge, 162

K

K–12 student learning, 48
Kappa Delta Pi, 303–04
Kelly, Truman Lee, 303
Kilpatrick, William Heard, 304–05
Knowledge, 48, 50, 350
Knowledge economy, 64

L

Laboratories vs. science classrooms, 174–82
Leader students, 328–29, 332
Leadership, 317–24, 347–49
Learning: banking or transmission model, 39, 43; mathematics critical interpretation, 216–17; mathematics-instruction methods, 258; spearheading development, 149; students, 49–51; teachers, 48–49
Learning theory, 82
Legal reporting requirements of child abuse, 121
Lifelong learning, 239–40
Lifeworld, 218–20
Listeners, 74–75
Literacy, 240

M

Management, 70, 349; restructuring systems, 65
Mathematics: education in rural communities, 215–24; gender equity, 204–13; international trends in curriculum, 235–47; international data from TIMSS, 250–57; modifying curricular outcomes, 280–81; military service, 225–34; planning, 276–82; reform, 258–64
Mechanistic psychology, 304–05
Media role in school safety, 159
Medical neglect, 123–24
Mentor, 323
Metacognition, 48, 49
Metal detectors, 159
Middle schools: moral education, 337–38; resistance in, 140–46
Minority and low-income candidates and high-stakes testing, 382–83
Modeling real world, 218
Moral: climate, 143–44; conversations, 145–46; education, 245, 337–38; imperative, 148
Mozart effect, 366

Multicultural education, 373–77
Musselman, T. E., 303

N

Name-calling, 329
NCTM standards, 42
Negative effects of rewards, 92–93
Neglect, 120–24
Netherlands, 237–40, 243–46
New Zealand, 239–40, 243–46
Nimitz, Chester W., 226–27
"Nimitz letter" and school mathematics, 226–27

O

Online schools, 66
Oralists, 27
O'Shea, Michael Vincent, 301
Oswego State Normal School, 302
Out-of-school suspensions, 332
Ownership, 269–73

P

Paraprofessional educators, 61
Parent-adolescent conversations, 171–72
Parental pressures, 115
Parental-involvement problems, 117
Parent-child dialogue decline, 166
Parents: interpreting teacher messages, 171; participation in discipline, 165–66; reporting student behavior to, 168–70; role in safety and violence, 115–16; student misbehavior, 167, 172
Parker, Francis Wayland, 301
Partnerships, 318–21, 323
PASS (Parent Alert Signal System), 168–72
PDAs (personal digital assistants), 168–69
Pedagogical content knowledge, 49–51
Peer: abuse, 164–65; coaching structure, 51; mediation, 148–49, 151; pressure, 115
Perfectionists, 77
Philosophically sound paradigms, 59–60
Philosophy, 390
Physical abuse: indicators, 122–23; of children, 120
Physical maintenance, 83–84
Physical neglect, 123–24
'Plan, Do, and Review,' 374–75
Policy makers, 22–24
Portfolios, 81–88
Poststructuralist resistance theory, 140
Praxis, 359–60, 381–86
Preprofessional course structure, 354–62
Preservice teachers: career choice, 360; students with disabilities, 34
Principals: involved in partnership development, 321–23; process of developing leadership, 319
Professional development, 48–51, 116–17; accessing impact, 344–52; training and preparation in diversity, 372
Professionalism, 17–18
Professions, female participation in, 212
Progressive education movement, 226, 305, 390–92
Propositional knowledge, 349, 351
Psychological violence, 329
Psychologically terrorizing children, 124
PTSD (post-traumatic stress disorder), 129–37
Punishment culture, 144
Punitive measures, 114
Pure mathematics, 217

R

Readers, 74–75
Reasoning, 218
Reflection, 82, 86–87, 320–21, 359–60
Relationships, 313–14, 320
Resistance in middle schools, 140–46
Respect, 330–34
Retaliation, 330
Rewards, 92–93
Rote learning for test, 38
Rugg, Harold Ordway, 303
Rural: communities, 319–20; context, 219–23; mathematics education, 215–17, 222–23

S

SACS (Safe and Caring Schools) Project, 153–54
Safe learning environments, 164–72
Safe schools, 156–62, 329–30
Safety: focus groups, 111–18; ICPP (Integrated Cohort Preprofessional Program) model, 359–60; in schools, 156–62, 327; media role in, 159; science classrooms, 174–82

SAP (student-assistance-program) model, 117
SAT, 381–82
Scaffolding, 149–50
School districts: accommodating technology, 63; locally developed accountability systems, 44; violence, 110
School(s): achievement problems, 254–55; busing, 186; caring environment, 148; climates, 333, 340; culture, 326–27; distance learning, 66; facilities, 66–67; high-stakes state testing, 37, 115; local and networked learning communities, 46; low scores on state test, 44; managing student behavior, 143–44; safety, 152–62, 327; shootings, 114; standard-setting, 41–42; state-mandated standards and testing, 43; teaching to test mentality, 39; violence, 328–29; vocational learning, 317–25
School-based learning communities, 37
School-community partnerships, 320
Science: changes to world, 217; citizenship education, 244; classes, 176–77, 179–82; comparative data from TIMSS, 250–57; female participation, 210–13; gender differences, 204–205; teachers, 177–82
Science classrooms: changes in cultures of, 273; ICT (Information Communication Technologies), 266–75; learning facts, 274 vs. laboratory, 175–82
SCORE (School Code of Recordable Events), 168–72
Screening teacher candidates, 380–88
Security, 110, 114, 334
Service, 90–91; economy, 64; learning, 360
Sex-role identification, 205
Sexual abuse indicators, 123
Sexually abused children, 120
Shared leadership, 324
Shared lesson and curriculum planning, 51
SIMS (Second International Mathematics Study), 207
Singapore, 237–39, 242–46
Site-based management, 44
Snedden, David, 303
Social: acceptance, 115; context, 48; sciences, 244; studies, 38, 244
Social-learning theory, 150
Solitude, 308–15
South Korea, 237, 242–46
Spain, 243–46
Specialization, 57–58
Sports pressure, 115
Staff-development professionals, 51–53
Standards-based reforms, 14
State: departments of education, 59; education and the, 44–45; licensing, 14; standards, 36–39
State vs. local control of educational standards, 36–46
State-mandated beginning-teacher standards, 87
Stephens, Ronald D., on school safety, 156–62
Stress, 115, 117, 133
Student teachers, 354
Student uniforms, 158
Student(s): access to chemicals, 179; achievement, 58; boredom, 113; chronic problems, 142; conflict-mediation training, 148–55; constancy and, 274; disabilities, 56; dispositions, 266–67; disrespected, 331; diverse cultural backgrounds, 50; emotionally upset, 166; expressions of culture, 375; higher expectations for, 47; holding accountable for actions, 114; lacking self-control, 166; learning, 49–52; listening to about violence, 326–35; mathematical ability misgivings, 259; mental health, 160; misconduct, 166; non-English-speaking, 57; peer abuse, 172; perceptions of class differences, 187; performance on state tests, 37; portfolios, 83–85; reporting good behavior, 170; resistance in middle school, 140–46; safety restrictions, 159; school policies, 332; stress and pressure, 115; tattling, 165
Supervisory leader-follower relationship, 318
Sustainability stage, 321
Sustainer, 323
Sweden, 238
Switzerland, 237, 243–46

T

Tacit knowledge, 350–51
Tattling, 165
Teach-to-the-test mentality, 39
Teachable moment, 151
Teacher candidates, 380–88
Teacher education: alternative routes to certification, 23; assessment measures, 21–22; assumptions, 18–19; specialty preparation

areas, 20; programs, 17–18; state vs. local control of, 36–46; students with hearing loss, 26–34
Teacher educators, 19–21
Teacher preparation, 56–61
Teacher-credential programs, 372
Teacher-parent communication obstacles, 166–67
Teachers: analyzing student work, 51; attentive professionalism, 44; attrition, 58–59; behavior and cultural knowledge, 372–79; as change agents, 354; character development, 40; collaborative cultures, 49; conflict-resolution and peer-mediation programming, 152; diversity, 372; enforcing rules, 144; gender differences, 213; government initiatives, 345; holding students accountable, 114; improving quality, 14–24; inexperienced and disadvantaged students, 16; in-service training, 47; internal accountability measures, 43; intrinsic rewards, 36; knowledge, 50; listening, 145; managing administrators, 70–80; mandated standards, 45; mathematics, 258; 144; operating style, 73; professional development, 116–117; qualifications and student achievement, 58; reframing conflict, 151; reporting disruptions, 171; respect and involvement, 113; respect for students, 330; retention, 346; roles and responsibilities, 150; school safety, 158, 329; service, 90–91; solitude, 308–10; special talents, 37; teaching decisions, 36; turnover, 346; virtual classrooms, 66–67
Teaching: accountability, 308; appropriate skills for, 22–23; composition and, 311–15; depersonalized and standardized, 37; diversity, 375; images and ideas about, 356, 358; mathematics, 216–17, 276–81; semiprofession, 17; standards, 36–46
